Zuhr

Winter: Pray as soon as the time enters

Summer: Delay until it becomes cooler

Asr & Maghrib

Asr: Delay slightly, but before the sun changes color

Maghrib: Pray immediately when time begins
(always)

Isha

It is recommended to delay the Salah and pray it before one-third of the night passes

Find the total night time (**sunset → Fajr**) then divide it into 3 equal parts

Example: 6 PM → 6 AM = 12 hrs → each third = 4 hrs

Cloudy Weather

Pray Asr and Isha early (as soon as time enters)

Delay the other prayers slightly for caution
