Wiping Over Casts, Splints & Bandages

Wiping Over Casts & Bandages

If a person has a broken or wounded limb, he may wipe over the cast, bandage, or dressing for as long as the injury remains.

Permissible even if it was put on while in major or minor impurity.

How Much Must Be Wiped?

It is **not** required to wipe the entire cast. There is a weaker opinion that says it is required.

It is **not** necessary to wash exposed skin between dressing gaps.

How Much Must Be Wiped?

If the Cast Falls Off

If the cast or bandage falls off before healing:

- Previous wiping remains valid.
- Previous prayers remain valid.
- One does not need to repeat them.

Wiping over an injured area counts as washing it

Replacing the Cast

If a new cast or bandage replaces the old one:

It is not obligatory to wipe it again (if the original had already been wiped).

Wiping is recommended

Types of Filth (Najasa)

1. Heavy (Mughallaza):

- Spilled blood
- Feces
- Wine (*khamr*)
- Sperm (*mani*)

Types of Filth (Najasa)

2. Light (Mukhaffafa)

- Urine of animals whose meat is halal
- Urine of horses
- Droppings of birds whose meat is haram

How to Purify Filth

If filth is **visible** (discernible)

- Remove the substance itself (even if you wash once).
- Exception: what is difficult to remove.

How to Purify Filth

If filth is ***not visible*** (indiscernible):

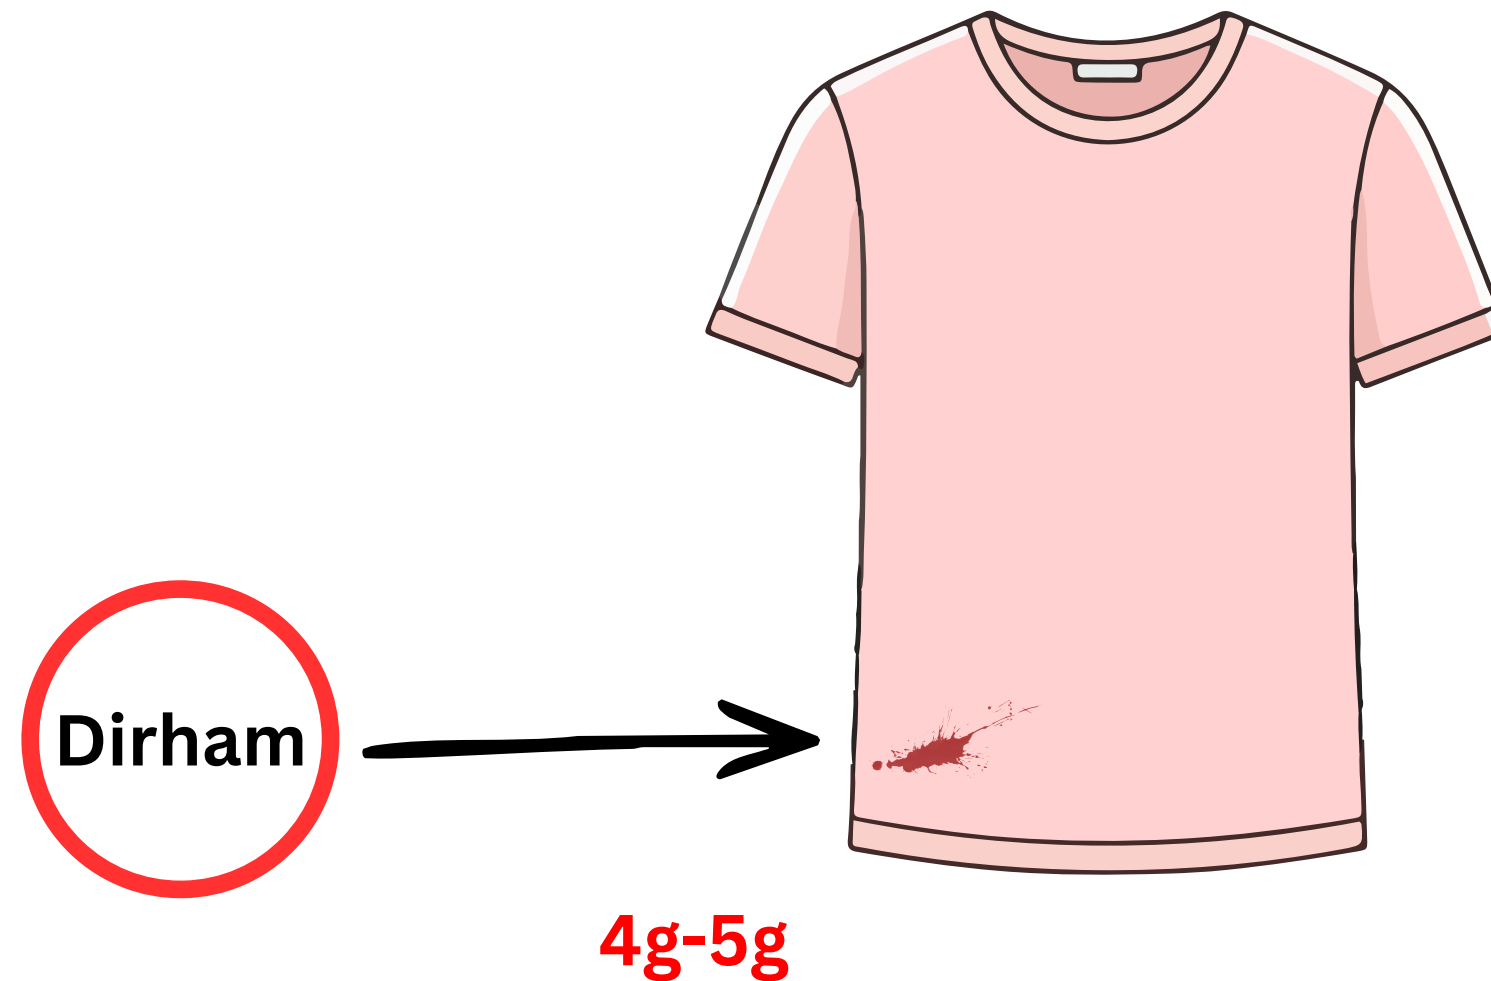

Wash and squeeze three times.

If it cannot be squeezed:

- Wash three times.
- Wait each time until dripping stops.

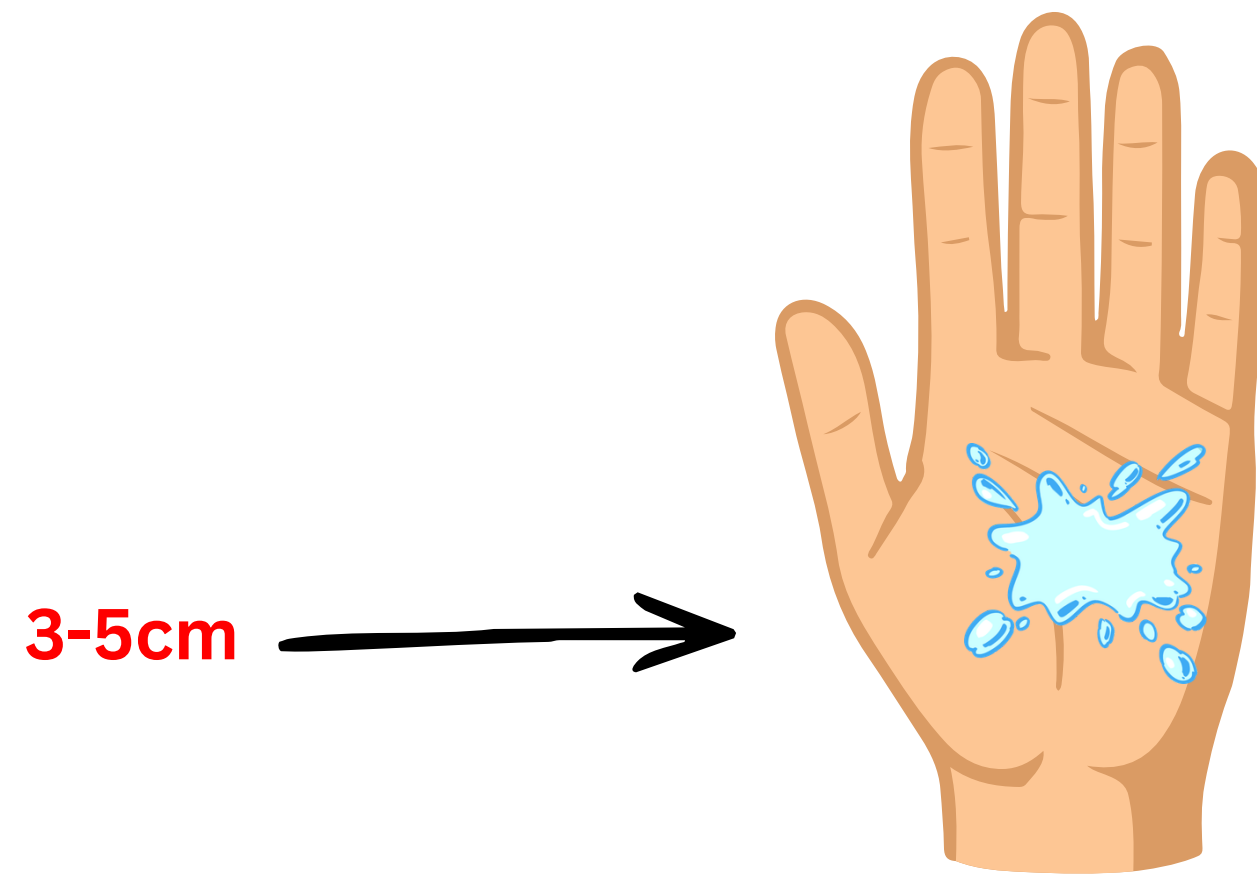

Excused Amounts in Prayer

*Heavy **Solid** filth:* Excused up to the size of a dirham (coin).

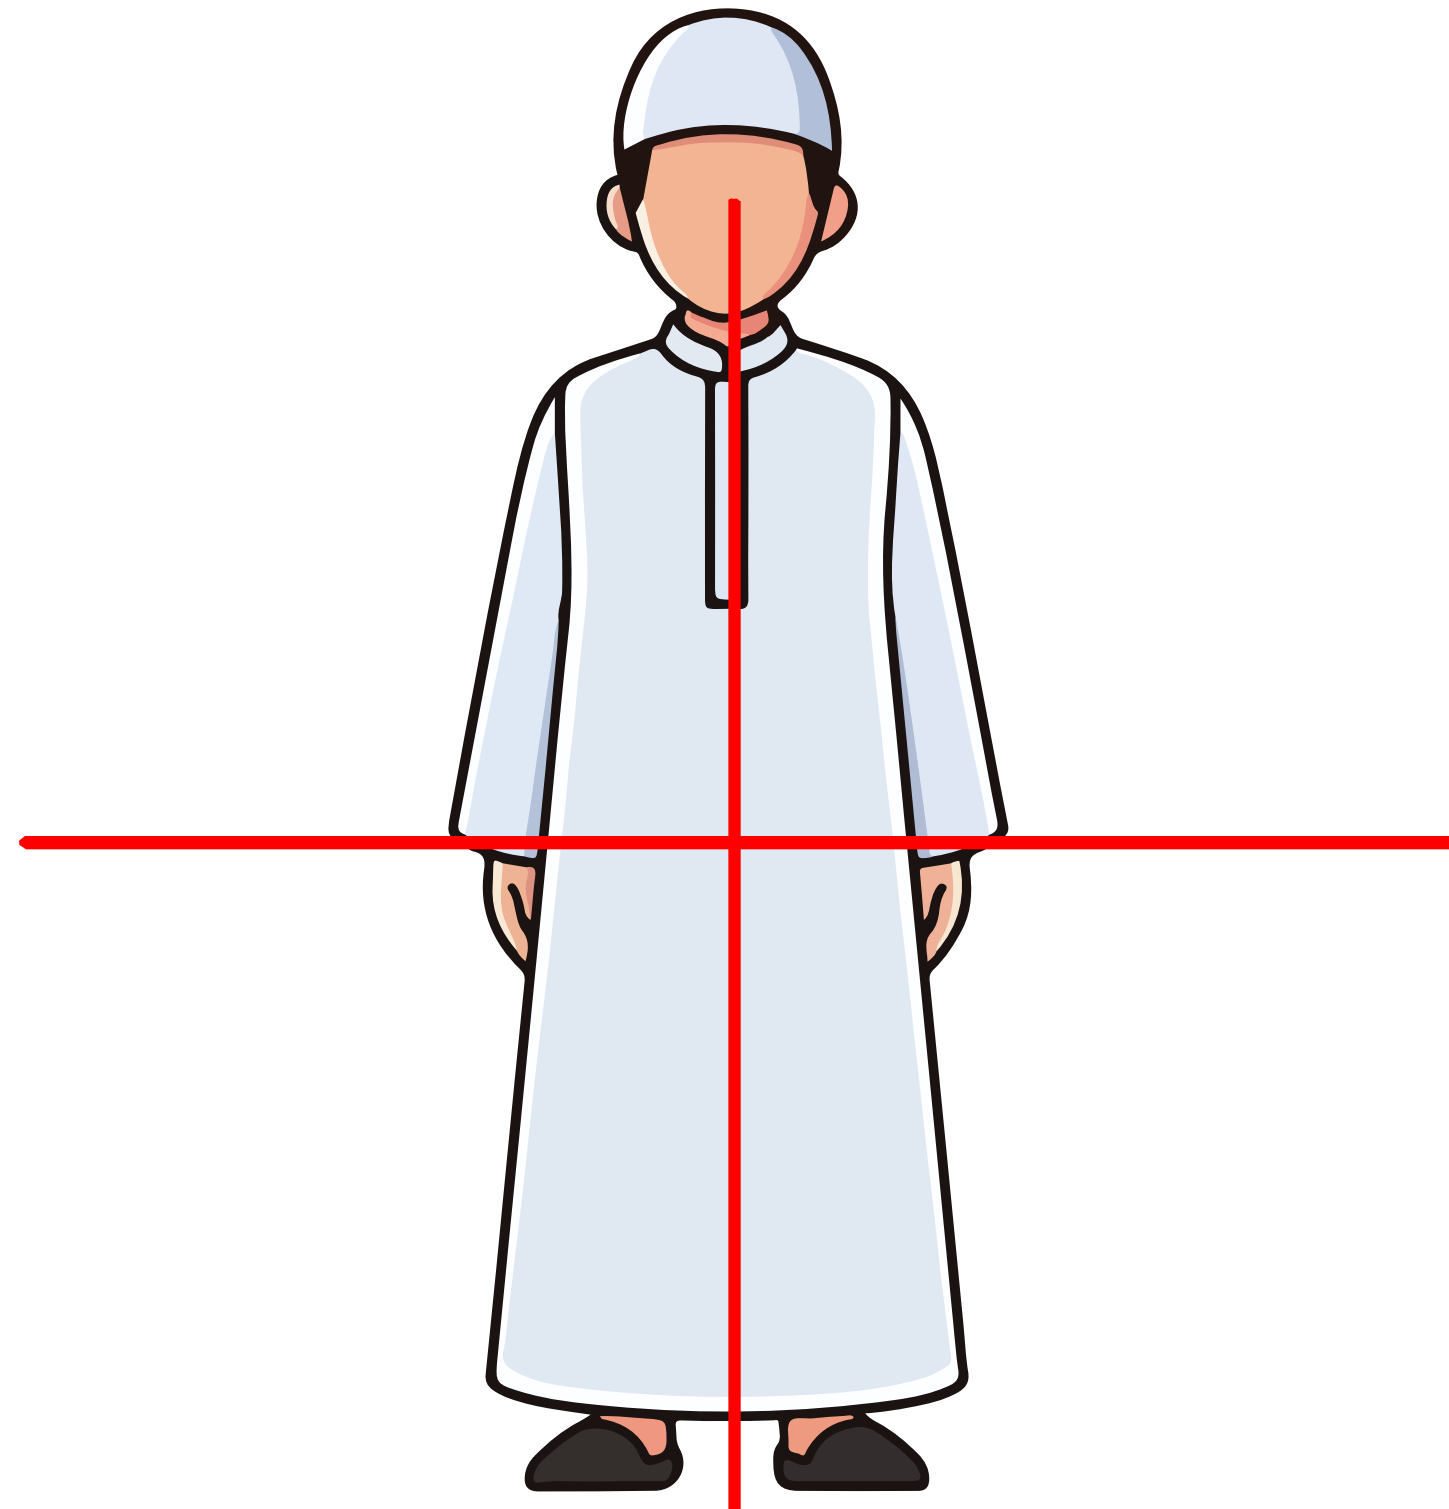

Excused Amounts in Prayer

Heavy liquid filth: Excused amount 3-5cm.

Excused Amounts in Prayer

Light filth: Excused if less than $\frac{1}{4}$ of the garment or body.

When Filth Does NOT Transfer

1. A damp impure garment touches a dry pure garment without dripping.
2. A wet foot steps on impure ground with no visible trace (**Colour & Smell**)
3. A damp garment touches impure ground with no visible trace.
4. Sweat moistens a dry impure garment with no trace appearing.

Permissible liquids for cleaning

- Water (even used water)
- Any pure liquid that removes filth (e.g., rosewater, vinegar)

Special Purification Cases

Chemical transformation (Istihala): e.g., feces turning into salt or ash = becomes pure.

Khuff or sandals: If solid filth → purified by rubbing/scraping (no washing required).

Sword or smooth surface: purified by wiping.

Natural ground: Purified by drying (if no trace remains) - but not usable for tayammum.

Special Purification Cases

Dried sperm: purified by scraping.

Items without flowing blood (hair, feathers, horn, claw, bone without fat): do not become impure upon death.

Tanned hides (except pig & human): become pure after tanning.
